

Community Center Director Report – September 15, 2016

We officially said “good bye” to summer with the closing of the outdoor pool on Monday, September 5th, although the unseasonably warm weather had some residents hoping the pool would remain open longer. The BTCC now moves onto fall programming with many programs already started and the rest beginning the week of September 19th. A quick list of some of the popular fall offerings include; aerobics, karate, spinning, zumba, water exercise classes for young and old, swim lessons (both group and private), teen weight training, preschool soccer, craft classes, country line dancing and a wide variety of Senior activities (including the popular Silver Sneakers Program).

BTCC will also have several family friendly special events this fall. Some of those include:
