PUBLIC WORKS DEPARTMENT MONTHLY REPORT – MAY 2016

May was rather cool and rain soaked but that did not stop the grass from growing. With over 200 acres of grass to cut all over the township the wet weather made it difficult to cut some of our detention ponds as they were always too wet to cut. But as the end of the month dried out we were able to get into full cutting mode. The street sweeper is continuing to make its slow coverage of the township roads.

We had a crew repairing and patching storm sewer catch basins on Drift Court and also in Fox Chase that were in desperate need of repair. We also did some asphalt patching around some of these basins that required additional work. We had our asphalt sealing machine out to seal all of the patches that were done over the spring season. The playground unit at the Community Center was in need of new mulch. We hauled in over 130 cubic yards of Certified Playground Mulch and spread it over the play area.

The Yard Waste Recycle Center had a total of 918 visits for the month.

Respectfully submitted,

Richard W. Grube
Chief of Public Works
