

Community Center Director Report – November 10, 2020

The Community Center continues to operate under the policies and protocols established in accordance with the CDC and PA Department of Health to assure a safe environment for our members and staff. Our hours remain slightly reduced to ensure adequate staffing throughout the facility.

The attendance within the facility remains steady, with the indoor pool being utilized nearly every lane, each hour. We have a few members who are taking advantage of private, on deck, swim lessons with our instructors as we have not yet resumed group swim lessons at this time. As the weather begins to change and cooler temperatures approach, we expect more members to resume their exercise routines inside. We have seen an increase in members re-activating memberships that were previously on hold as well as some new memberships and renewals.

Since the weather has been mild through October and mid-November, we have been able to continue our fitness classes outdoors. These classes have been very well received and members/instructors are pleased to have a safe environment to join others who share in their passion for fitness and group exercise. We did bring a few classes indoors when the weather was uncooperative, and all members were comfortable with the social distancing and mask wearing throughout the duration of the class. Some modifications were made by the instructors to ensure a safe exercise experience. For those members who have are not comfortable with visiting our facility, the Community Center has virtual classes available. Some of those include yoga, tai chi, qi Gong and tae kwon do.

We will continue to monitor the attendance and daily operations, making any necessary adjustments to our procedures and program/amenity offerings.

As always, I am readily available to answer any specific questions you may have regarding the facility, memberships or the programs/classes.

Community Center Director
Jackie Bittel
