

Community Center Director Report – October 13, 2020

The Community Center continues to operate under the policies and protocols established in accordance with the CDC and PA Department of Health to assure a safe environment for our members and staff. Our hours remain slightly reduced to ensure adequate staffing throughout the facility.

The attendance within the facility is improving daily. As the weather begins to change and cooler temperatures approach, we expect more members to resume their exercise routines inside. We have seen an increase in members re-activating memberships that were previously on hold as well as some new memberships and renewals.

The outdoor fitness classes continue to grow in popularity. These classes have been very well received and members/instructors are pleased to have a safe environment to join others who share in their passion for fitness and group exercise. We offered additional classes to meet the increased demand from our new and returning members. In addition to our outdoor classes, the Community Center is also offering virtual classes for our members who may not be ready to visit the facility, including yoga, tai chi, qi Gong and tae kwon do.

Within the past few weeks we have also opened the hot tub and the basketball courts to our members. Both amenities are following policies and protocols in adherence to the guidelines of the CDC. Within the next few weeks, we hope to bring inside some programming for our youth and preschool aged residents. We will continue to monitor the attendance and daily operations, making any necessary adjustments to our procedures and program/amenity offerings.

As always, I am readily available to answer any specific questions you may have regarding the facility, memberships or the programs/classes.

Community Center Director
Jackie Bittel
